About Us

Vision

Our vision is to set a new benchmark in the medical disposable industry by becoming a trusted global partner that healthcare professionals rely on every day. We aspire to shape the future of healthcare by providing innovative, safe, and sustainable disposable solutions that enhance patient care and improve operational efficiency.

Through continuous innovation, unwavering commitment to quality, and a deep understanding of our customers' needs, we aim to inspire confidence and make a positive impact on the health and well-being of communities worldwide.

Mission

At the heart of our mission is a dedication to excellence in every product we deliver and every relationship we build. We are committed to manufacturing and supplying premium-quality medical disposable products that meet the highest international standards for safety, performance, and reliability.

But we don't stop there – we go beyond simply providing products. We partner with our customers to deliver complete, customized solutions that address real-world healthcare challenges. By combining advanced technology, expert knowledge, and responsive service, we help our clients achieve better outcomes, reduce risks, and improve patient care.

Driven by integrity, innovation, and customer satisfaction, we strive to create lasting value for our partners and contribute to a healthier, safer future for all.

Company Profile

Sellmed s.r.l. is an Italian company dedicated to manufacturing and sales of innovative, high quality and certified medical devices. Since its establishment, Sellmed s.r.l. is providing quick and reliable solutions to its customers.

Sellmed s.r.l. has its headquarters in Torino, Italy, and a subsidiary company in Turkey.

Sellmed s.r.l. is continuously increasing its product portfolio by differentiating and adding devices within several product lines. We are providing more than 600 different medical products to our customers.

Oxygen Masks

Oxygen Mask with reservoir

Comfortable, durable, and designed for optimal oxygen delivery, our oxygen masks are ideal for medical, emergency, and therapeutic use. Made from high-quality, latex-free materials, they feature adjustable straps and a contoured design to ensure a secure and comfortable fit for patients of all ages. Available in adult and pediatric sizes, with or without reservoirs.

Product	Lenght	Specification	Size
Simple Oxygen Mask	1x5.5 mm x 2.1 m	Elastic strap, adjustable nose clip	L+, L, M, S, XS
Oxygen Mask with Reservoir	1x5.5 mm x 2m	Elastic strap, adjustable nose clip	L+, M, S, XS
Oxygen Connection Tube	2.1 m, 4.6m, 9m	clear, 5.5mm, 2 standard connectors	N/A

Venturi Masks

Designed for precise oxygen therapy, our Venturi masks deliver accurate and consistent oxygen concentrations, making them ideal for patients requiring controlled oxygen delivery. Each mask includes color-coded diluters for easy identification and adjustment of flow rates. Made from soft, latex-free materials with adjustable straps for a comfortable and secure fit. Suitable for adult and pediatric use.

Product	Lenght	Specification	Size
Venturi Mask	1x5.5 mm x 2.1 m	Oxygen concentration 24%, 26%, 28%, 30%, 35%, 40%, 50%	L+, M

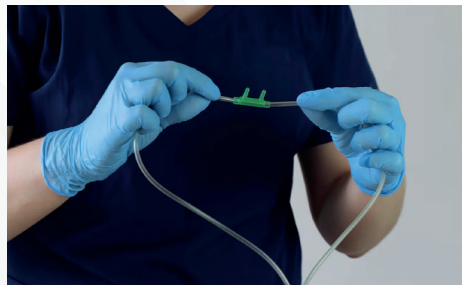

Tracheostomy Masks

Comfortable, durable, and designed for optimal oxygen delivery, our oxygen masks are ideal for medical, emergency, and therapeutic use. Made from high-quality, latex-free materials, they feature adjustable straps and a contoured design to ensure a secure and comfortable fit for patients of all ages. Tracheo dressing is also available in our portofoglio.

Product	Lenght	Specification	Size
Tracheostomy Mask	1x5.5 mm x 2 m	Swivel 360° adaptor with 18/22 port	Adult - Pediatric

Nasal Oxygen Cannula

Our nasal oxygen cannulas provide a comfortable and efficient way to deliver supplemental oxygen for patients requiring low to moderate flow rates. Made from soft, medical-grade, latex-free tubing, they feature flexible prongs designed for a secure fit and minimal irritation. Available in adult, pediatric, and neonatal sizes with adjustable tubing lengths for versatility in clinical and homecare settings.

Product	Lenght	Specification	Size
Nasal Oxygen Cannula	2,1 m, 4,8m, 9,1 m	1 x 5.0mm clear +2 x 0.5M soft small tubes	Adult, Straight tip
Nasal Oxygen Cannula	2,1 m, 4,8m, 9,1 m	1 x 5.0mm clear +2 x 0.5M soft small tubes	Adult, Curved tip
Nasal Oxygen Cannula	2,1 m	1 x 5.0mm clear +2 x 0.5M soft small tubes	Child, curved tip
Nasal Oxygen Cannula	2,1 m	1 x 5.0mm clear +2 x 0.5M soft small tubes	Infant, Straight tip
ETCO2 Sampling Cannula	1.2 m	1 x 5.0mm clear round +2 x 0.5m soft small tubes luer connector,	Infant, Straight tip
Nasal Oxygen Canula For Polysomnography	0,7 m	1 x 5.0mm clear tube+ 2 x 0.5M soft small tubes	Streight tip
Oxygen Extension Tube	0,2 m, 2m, 4.6m, 7m, 9m	Clear, 5 mm, 2 standard connectors	N/A

CPAP Masks

Engineered for comfort and effective sleep apnea therapy, our CPAP masks provide a secure seal and minimal leakage for consistent positive airway pressure. Available in nasal, full-face, and nasal pillow designs to suit individual preferences and sleep styles. Made from soft, skin-friendly materials with adjustable headgear for a customized fit. Compatible with all standard CPAP machines.

Ventilation Circuits

Designed for optimal performance in both invasive and non-invasive ventilation, our ventilation circuits ensure consistent and efficient airflow in critical care and respiratory therapy settings. Made from durable, medical-grade materials with smooth inner surfaces to minimize resistance and condensation. Available in adult and pediatric sizes, with single-use and reusable options, and compatible with all major ventilator brands.

Product	Material	Size	Water Trap	Accessories
Ventilation Circuit	PVC- Smoothbore	1.80 m	N/A	Extra limb, Bacterial filter, HME filter, Catheter Mount
Ventilation Circuit	PVC- Smoothbore	1.80 m	1	Extra limb, Bacterial filter, HME filter, Catheter Mount
Ventilation Circuit	PVC- Smoothbore	1.80 m	2	Extra limb, Bacterial filter, HME filter, Catheter Mount
Ventilation Circuit	PE - Corrugated	1.80 m	N/A	Extra limb, Bacterial filter, HME filter, Catheter Mount
Ventilation Circuit	PE - Corrugated	1.80 m	1	Extra limb, Bacterial filter, HME filter, Catheter Mount
Ventilation Circuit	PE - Corrugated	1.80 m	2	Extra limb, Bacterial filter, HME filter, Catheter Mount
MonoTube Circuits	PE - Corrugated	40 cm 60 cm 120 cm 180 cm	N/A	Both end with cuff

The length of the circuit can be adjusted to 1,5 m or 2,1 m
All circuits can be customized upon customer request.

CPAP Circuits

Our CPAP circuits are designed to provide reliable and consistent airflow for patients undergoing Continuous Positive Airway Pressure therapy. Made from lightweight, flexible, and kink-resistant tubing, they ensure patient comfort and optimal pressure delivery. Compatible with all standard CPAP and BiPAP machines, these circuits are available in disposable and reusable options, with or without humidification support.

Anesthesia Circuits

Our anesthesia breathing circuits are designed to deliver safe, efficient gas flow during surgical procedures. Available in adult and pediatric configurations, each circuit is made from high-quality, medical-grade materials and features flexible, kink-resistant tubing for easy positioning. Compatible with standard anesthesia machines and ventilators, these circuits are available in both reusable and single-use options to meet various clinical needs.

Product	Material	Lenght	Rebreathing Bag	Accessories
Anesthesia Circuit	PVC- Smoothbore	1.80 m	N/A	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PVC- Smoothbore	1.80 m	1L	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PVC- Smoothbore	1.80 m	2L	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PVC- Smoothbore	1.80 m	3L	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PE - Corrugated	1.80 m	N/A	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PE - Corrugated	1.80 m	1L	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PE - Corrugated	1.80 m	2L	Extra limb, Bacterial filter, HME filter, Catheter Mount
Anesthesia Circuit	PE - Corrugated	1.80 m	3L	Extra limb, Bacterial filter, HME filter, Catheter Mount

*The lenght of the circuit can be adjusted to 1,5 m or 2,1 m

*The length of the extra limb can be 40cm – 60 cm – 120 cm- 180 cm

*All circuits can be customized upon customer request.

Anesthesia Masks

High-quality, single-use masks designed for safe and comfortable anesthesia administration. Made from soft, medical-grade materials with an excellent facial seal and transparent body for patient monitoring. Available in multiple sizes for adult and pediatric use. Compatible with standard anesthesia equipment.

Size	Color	Connector
#0 Neonate	N/A	15 mm OD
#1 Infant	N/A	15 mm OD
#2 Pediatric	Yellow	22 mm ID
#3 Adult Small	Green	22 mm ID
#4 Adult Medium	Red	22 mm ID
#5 Adult Large	Blue	22 mm ID
#6 Adult Extra Large	Orange	22 mm ID

Disposable PVC Resuscitator – Sellmed s.r.l

Durable, single-use resuscitator made from high-quality medical-grade PVC for reliable emergency ventilation. Designed for ease of use and effective performance, with a transparent mask for patient monitoring and an ergonomic, non-slip design. Equipped with an oxygen reservoir bag and pressure relief valve for added safety. Available in adult, pediatric, and infant sizes.

Adult (Adults and pediatric use)	Single use adult 1500 ml Resuscitator (W/60 cm H2O) PVC anesthesia mask #4 2000 ml oxygen reservoir bag Oxygen tubing 2.1 m Pressure relief valve (60 cm H2O relief)
Pediatric (Pediatric and Infant use)	Single use adult 550 ml Resuscitator (W/40 cm H2O) PVC anesthesia mask #2 1600 ml oxygen reservoir bag Oxygen tubing 2.1 m Pressure relief valve (40 cm H2O relief)
Infant (Infant and Neonate use)	Single use adult 280 ml Resuscitator (W/40 cm H2O) PVC anesthesia mask #1or #0 1600 ml oxygen reservoir bag Oxygen tubing 2.1 m Pressure relief valve (40 cm H2O relief)

RESPIRATION FILTERS

Bacterial / Viral Filters

Our high-efficiency bacterial/viral filters are designed to protect patients and equipment by trapping airborne pathogens during respiratory therapy and ventilation. Suitable for use with ventilators, anesthesia machines, and manual resuscitators, these filters offer low resistance to airflow while maintaining high filtration efficiency. Compatible with standard respiratory circuits and available in adult and pediatric sizes. Single-use and sterile options available.

*Different product formats are available.

HME Filters

Heat and Moisture Exchange (HME) filters provide effective humidification and filtration for mechanically ventilated and tracheostomized patients. Our HME filters help retain heat and moisture from exhaled air, improving patient comfort and protecting airway integrity. They also offer high-efficiency bacterial and viral filtration to reduce infection risk. Compatible with most ventilator and anesthesia circuits, and available in adult and pediatric sizes.

*Different product formats are available.

Tracheostomy Filters

Our Heat and Moisture Exchange (HME) filters for tracheostomy care provide effective humidification and filtration, helping to maintain airway moisture and reduce the risk of infection. Compact and lightweight, they are designed for easy attachment to tracheostomy tubes and offer low breathing resistance. Made with high-efficiency filtering

materials, they are ideal for both short-term and long-term use in clinical or home settings.

*Different product formats are available.

Catheter Mount

Sellmed Sel catheter mounts are designed to provide a secure and flexible connection between the patient and the breathing system. They help reduce the risk of accidental disconnection and minimize strain on the endotracheal or tracheostomy tube. Available in various configurations with or without filters and elbows.

Our Catheter Mount comes in both in PVC and PE expandable tube and 22/15 and 22/22 connectors.

Bubble Humidifiers

Bubble humidifiers are designed to add moisture to dry oxygen during low-flow oxygen therapy, helping to reduce nasal dryness and improve patient comfort. Our units are made from durable, medical-grade plastic and feature a pressure relief valve for added safety. Compatible with most oxygen concentrators and regulators, they are available in disposable and reusable models with standard or quiet operation lids.

Up to 6 psi we have 6 L/min and 15 L/min choices.
Extension line for 30 cm and 50 cm

Catheters

Health Sell Medical Catheters are high-quality, sterile devices designed for the safe and effective drainage or administration of fluids within the body. Manufactured from premium, medical-grade materials, these catheters ensure flexibility, durability, and patient comfort during use. Each catheter features a smooth surface and rounded tip to minimize irritation and facilitate easy insertion. Suitable for various clinical applications, including urinary and intravenous use, Health Sell Medical Catheters are available in a wide range of sizes and configurations to meet the needs of healthcare professionals in hospitals, clinics, and home care environments.

Product	Specification	Size
Plain catheter	N/A	6-8-10-12-14-16-18
Y Type Catheter	With control valve	6-8-10-12-14-16-18
T Type Catheter	With control valve	6-8-10-12-14-16-18
Nelaton Catheter	N/A	6-8-10-12-14-16-18

Suction Tube

Suction Tubing is a flexible tube used to connect suction devices in order to remove fluids from the body. As a leading CE/ISO-certified manufacturer of flexible suction tubing, Sellmed s.r.l is recognized for its expertise in producing reliable and effective producing medical disposables.

Product Specifications:

Y-Type Transparent connector, Open distal end with 2 side hole, Terminal rounded head, 50 cm lenght.

Available sizes

FR 8 - FR 10 - FR 12 - FR 14 - FR 16

Suction Bottle Kit

The suction jars or collection bottles are used to collect all types of secretions originated by medical suction: liquids, secretions and mucus. They are the perfect complement to be used with any suction equipment.

1000 ml volume, 2 pcs filter, (1pc 3/16"x140cm with 2pcs long connectors; 1pc 1/4"x25cm with 1pc long connectors; 1pc 1/4"x20cm with 2pc long connectors)

	Set 1	Set 2
Bottle type	Suction Canister 1000 ml	Suction Canister 1000 ml with O-ring
Filters	2 Filters PP	1 Filter PP
Long connection tube	140 cm / 2 en PVC connector	140 cm / 2 en PVC connector
Other connection tubes	25 cm with 1 PVC connector 20 cm with 2 PVC connectors	25 cm with 1 PVC connector
Elbow connector	N/A	90° elbow connector
Oring	N/A	ID: 11cm PE

Suction Bottle (Canister)

The suction jars or collection bottles are used to collect all types of secretions originated by medical suction: liquids, secretions and mucus. They are the perfect complement to be used with any suction equipment.

We provide 1000 ml volume suction bottles in 2 configuration with or without PE o-ring.

Suction connecting tube without Yankauer handle

Made from medical class PVC, clear and soft. blue connector. 1pc 3/16"x140cm with 2pcs long connectors; 1pc 1/4"x25cm with 1pc long connectors; 1pc 1/4"x20cm with 2pc long connectors.

Suction Filters

The Medical Suction Filter supplied by Sellmed s.r.l. is a high-quality safety device designed to protect both patients and medical equipment during suction procedures. It effectively prevents the passage of fluids, aerosols, and microorganisms into the suction system, ensuring a clean and reliable operation. Our filters are manufactured using medical-grade materials and are compatible with most suction units, providing efficient filtration, easy installation, and maximum protection against contamination.

Suction Catheter

Suction Catheters are suitable for removal of secretion from mouth, trachea and bronchial tubes. Manufactured from non-toxic non-irritant medical grade PVC. Colour coded for instant size identification. Provided with universal funnel shape connector for safe connection to standard suction equipment. Plain type connector, 50 cm, opposite holes and atraumatic rounded tip.

Available sizes : FR 8, FR 14
