About Us

Vision

Our vision is to set a new benchmark in the medical disposable industry by becoming a trusted global partner that healthcare professionals rely on every day. We aspire to shape the future of healthcare by providing innovative, safe, and sustainable disposable solutions that enhance patient care and improve operational efficiency.

Through continuous innovation, unwavering commitment to quality, and a deep understanding of our customers' needs, we aim to inspire confidence and make a positive impact on the health and well-being of communities worldwide.

Mission

At the heart of our mission is a dedication to excellence in every product we deliver and every relationship we build. We are committed to manufacturing and supplying premium-quality medical disposable products that meet the highest international standards for safety, performance, and reliability.

But we don't stop there – we go beyond simply providing products. We partner with our customers to deliver complete, customized solutions that address real-world healthcare challenges. By combining advanced technology, expert knowledge, and responsive service, we help our clients achieve better outcomes, reduce risks, and improve patient care.

Driven by integrity, innovation, and customer satisfaction, we strive to create lasting value for our partners and contribute to a healthier, safer future for all.

Company Profile

Sellmed s.r.l. is an Italian company dedicated to manufacturing and sales of innovative, high quality and certified medical devices. Since its establishment, Sellmed s.r.l. is providing quick and reliable solutions to its customers.

Sellmed s.r.l. has its headquarters in Torino, Italy, and a subsidiary company in Turkey.

Sellmed s.r.l. is continuously increasing its product portfolio by differentiating and adding devices within several product lines. We are providing more than 600 different medical products to our customers.

Health Sell IV Sets (Intravenous Sets)

Health Sell IV sets are high-quality medical tools designed to safely and efficiently administer fluids, medications, and nutrients directly into the bloodstream. Crafted from premium, medical-grade materials, these sets ensure optimal performance and reliability in both short-term and long-term care scenarios. Each Health Sell IV set includes essential components such as flexible tubing, a drip chamber, a roller clamp for precise flow regulation, and an injection port for easy medication addition. Available in various lengths and configurations, Health Sell IV sets meet the demands of healthcare professionals in hospitals, clinics, and outpatient settings, providing the highest standards of safety and comfort for patients.

We are capable of production for all type of applications such as Onchology, Medicine applications, etc.

I.V. Accessories

We can provide all kind of necessary IV accessories such as 3 way stop cocks, Luer caps, drip chambers, Flow regulators, Heparin caps tubes and LLF and MMF connectors etc. in bulk.

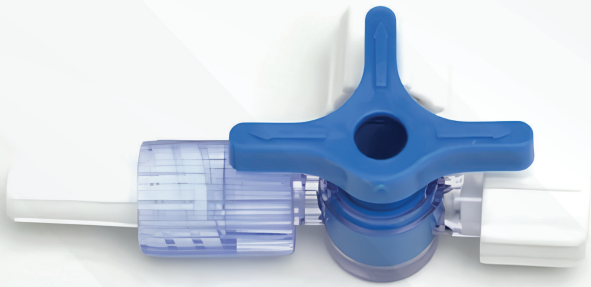

Different types of Needle free Injection port (NIP) depending on application type.

Transfusion Set

The **Transfusion Sets** offered by **Sellmed s.r.l.** are designed to ensure safe, accurate, and efficient blood and blood component transfusion. Manufactured from high-quality, medical-grade materials, our sets feature precision filters for particle retention, air-vented or non-vented options, and smooth flow regulators for controlled infusion. Each set is sterile, single-use, and compatible with standard transfusion equipment, guaranteeing reliability and patient safety during every procedure.

Health Sell 3-Way Stopcock

The Health Sell 3-way stopcock is a precision medical device designed to control the flow of fluids or medications through intravenous systems. Featuring a durable, easy-to-operate mechanism, this stopcock allows healthcare professionals to simultaneously administer or switch between multiple fluids with ease and accuracy. Made from high-quality, medical-grade materials, Health Sell 3-way stopcocks ensure reliability and safety in both emergency and routine medical procedures. Ideal for use in hospitals, clinics, and critical care settings, the stopcock is designed to prevent leaks and ensure smooth operation under a variety of conditions.

Health Sell Single-Use Sterile Heparin Cap

The Health Sell Single-Use Sterile Heparin Cap is a vital tool for preventing catheter clotting and ensuring smooth and safe intravenous therapy. Pre-filled with heparin, this cap is designed for one-time use, reducing the risk of cross-contamination and ensuring a sterile environment. Made from high-quality, medical-grade materials, the Health Sell Heparin Cap provides a secure and reliable seal, protecting the catheter while preventing blood clot formation. Ideal for use in hospitals, outpatient clinics, and other medical settings, this easy-to-use cap ensures patient safety and optimal catheter functionality during IV treatments.

Health Sell Single-Pack Sterile Luer Cap

The Health Sell Single-Pack Sterile Luer Cap provides a reliable and secure solution for maintaining the sterility of Luer-lock connectors in intravenous systems. Designed for single-use, this cap ensures a sealed, contamination-free environment, reducing the risk of infection and ensuring the integrity of the IV line. Made from high-quality, medical-grade materials, the Health Sell Luer Cap is easy to apply, providing a tight fit and preventing fluid leakage. Ideal for use in hospitals, clinics, and other healthcare settings, this cap is an essential component for maintaining hygiene and safety in IV therapy.

Health Sell Syringes

Health Sell Standard Medical Syringes are designed to provide accuracy and reliability in a wide range of medical applications. Made from high-quality, medical-grade plastic, these syringes feature clear, easy-to-read graduations for precise measurements. With smooth plunger action and a secure fit, they ensure optimal performance for injecting or withdrawing fluids. Ideal for single-use, these syringes are sterilized to guarantee safety and are suitable for use in hospitals, clinics, and outpatient settings. Available in a variety of sizes, Health Sell Standard Medical Syringes offer a versatile, cost-effective solution for both routine and specialized medical procedures.

- Sterile
- High cylinder transparency – for good visualization of the syringe contents.
- Piston.
- Black graduation – for ideal contrast and readability.
- Safe piston return – reduced sliding force.
